

Mission Patch IAC 2025 – Sustainable Space : Resilient Earth

A mission patch is a cloth reproduction of a spaceflight mission emblem, worn by astronauts and other personnel affiliated with that mission. Traditionally, the patch is worn on the spacesuit that astronauts and cosmonauts wear when launched into space.

When developing your mission patch, aim to:

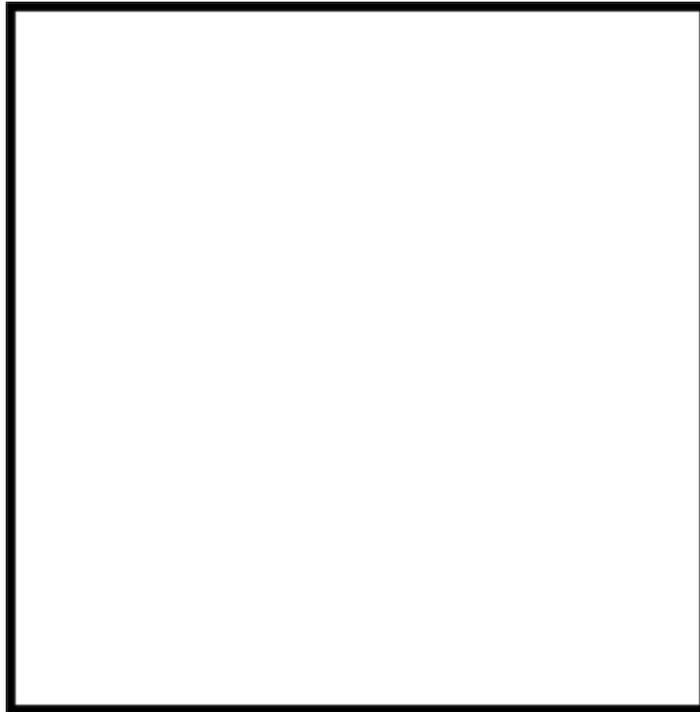

- create an imaginative and meaningful design that clearly represents ideas
- clearly connect with the theme ‘Sustainable Space : Resilient Earth’
- incorporate meaningful symbolism or imagery
- reflect aspects of Australian culture, environment or identity
- include a reference to specific Australian-made technology, satellite programs, rover development or symbols representing Australia’s contributions to international space missions (past, present or future)
- communicate a compelling story or concept through the design.

Your design should fill and remain inside the square provided below.

Refer to the [Mission Patch competition webpage](#) for teacher and student resources.
